

Match each value on the left with the appropriate phrase on the right. All items have at least one match, some have two matches.

$$\frac{7}{10,000}$$

seven thousandths

$$-13.009$$

negative thirteen and nine hundredths

$$0.007$$

$$-13\frac{9}{100}$$

seven ten-thousandths

$$\frac{7}{1000}$$

$$0.0007$$

negative thirteen and nine thousandths

Convert decimal to fraction, or mixed number.

*(As is normally expected, reduce or simplify, if possible.)*

---

1)  $-23.017$

---

2)  $0.14$

---

3)  $6.002$

Convert fraction or mixed number to decimal.

---

4)  $7\frac{9}{10}$

---

5)  $\frac{4}{5}$

---

6)  $\frac{3}{8}$
